CXO Genie App is a platform that the forum uses to leverage the power of technology and enabling quick solutioning, built with the belief that even hiring a candidate should be a 15-minute process!

CXO Genie App brings cutting-edge technology to you!

CXO Genie App is very good. We can post subject wise queries, and go back to refer all responses with respect to that particular query. Whenever we have some important query we can also post there. It may be easy at a later date to refer.

**Radha Ramanujan, CFO - Ashirvad Pipes**

I have had couple of things for the CXO Genie App, first the job portal - a lot of people approach you for the job, you can really refer them through this App. Find a specialist - in your professional life you always look for specialists and this is a very unique feature available on the App.
